Pew ends are a very important part of any pew design. At New Holland Church Furniture, we give our customers a variety of end designs that can be matched with most any of our pew bodies. Our motto is: *"If You Can Imagine It We Can Build It."* In addition to our large variety of standard end designs, New Holland can accommodate virtually any custom design you can imagine. All of our solid wood ends can be routed with custom symbols or designs to match your individual requirements. Pew ends pictured on pages 11 through 14 include a standard edge cut which complements the design of the end. Optional or custom edge cuts are available.

Custom Edge Cut

Edge Cut #8

Edge Cut #12

Edge Cut #14

All pew ends are shown in red oak or painted, unless otherwise noted.
