4N5 Dark Walnut

SB18 Mocha

NOTE: These digital Red Oak finishes are representative of the specified wood tones. Digital images of wood stain may appear to vary in color when viewed on different monitors or screens. Additionally, different pieces of the same wood specie will vary in color. If finish color is critical, please specify from actual wood samples. Please note, it is typical for some color variations to occur in production due to variations in wood grains; this is especially true of light and natural finishes.
